# SAFETY MESSAGE

*Incident:*

**Harvey Team 3 – Jefferson County  
Operations**

*Date:* 9/4/2017

*Time:* 0700–2100

## **Major Hazard and Risks:**

- **Vehicle Traffic**
- **Contamination(Flood Waters) and Personal Hygiene**
- **Heat, Humidity, and Sun Related Risks**

### Important information from Jefferson County officials:

When the water starts receding, and residents start to clean out homes and yards, county officials are asking to place all debris on the county road right of ways (shoulder) and not in the ditches. Anything placed in ditches will clog them up and make matters worse for any immediate rain events.

*SCFC's Incident Management Team works regularly with various organizations on training events and real-world disasters helping them to apply the principles of the Incident Command System framework. ICS is now widely adopted as the most effective organizational structure for both emergency situations and planned events. The only Type 2 IMT in the state, the Forestry Commission's team is the most highly qualified in the state. The team is currently deployed as a Type 3 IMT as an out of state deployment.*
